Program Overview

Day 1: Building Foundations

Opening Speeches & Icebreakers

Foster collaboration among participants

Expert Talks

"What is AI and How is it Used in Education?"

Partner Organizations' Presentations

Showcase expertise and roles

Discussion on Project Goals

Clarify objectives and expectations

Funded by
the European Union

What is AI and How is it Used in Education?

Definition of AI

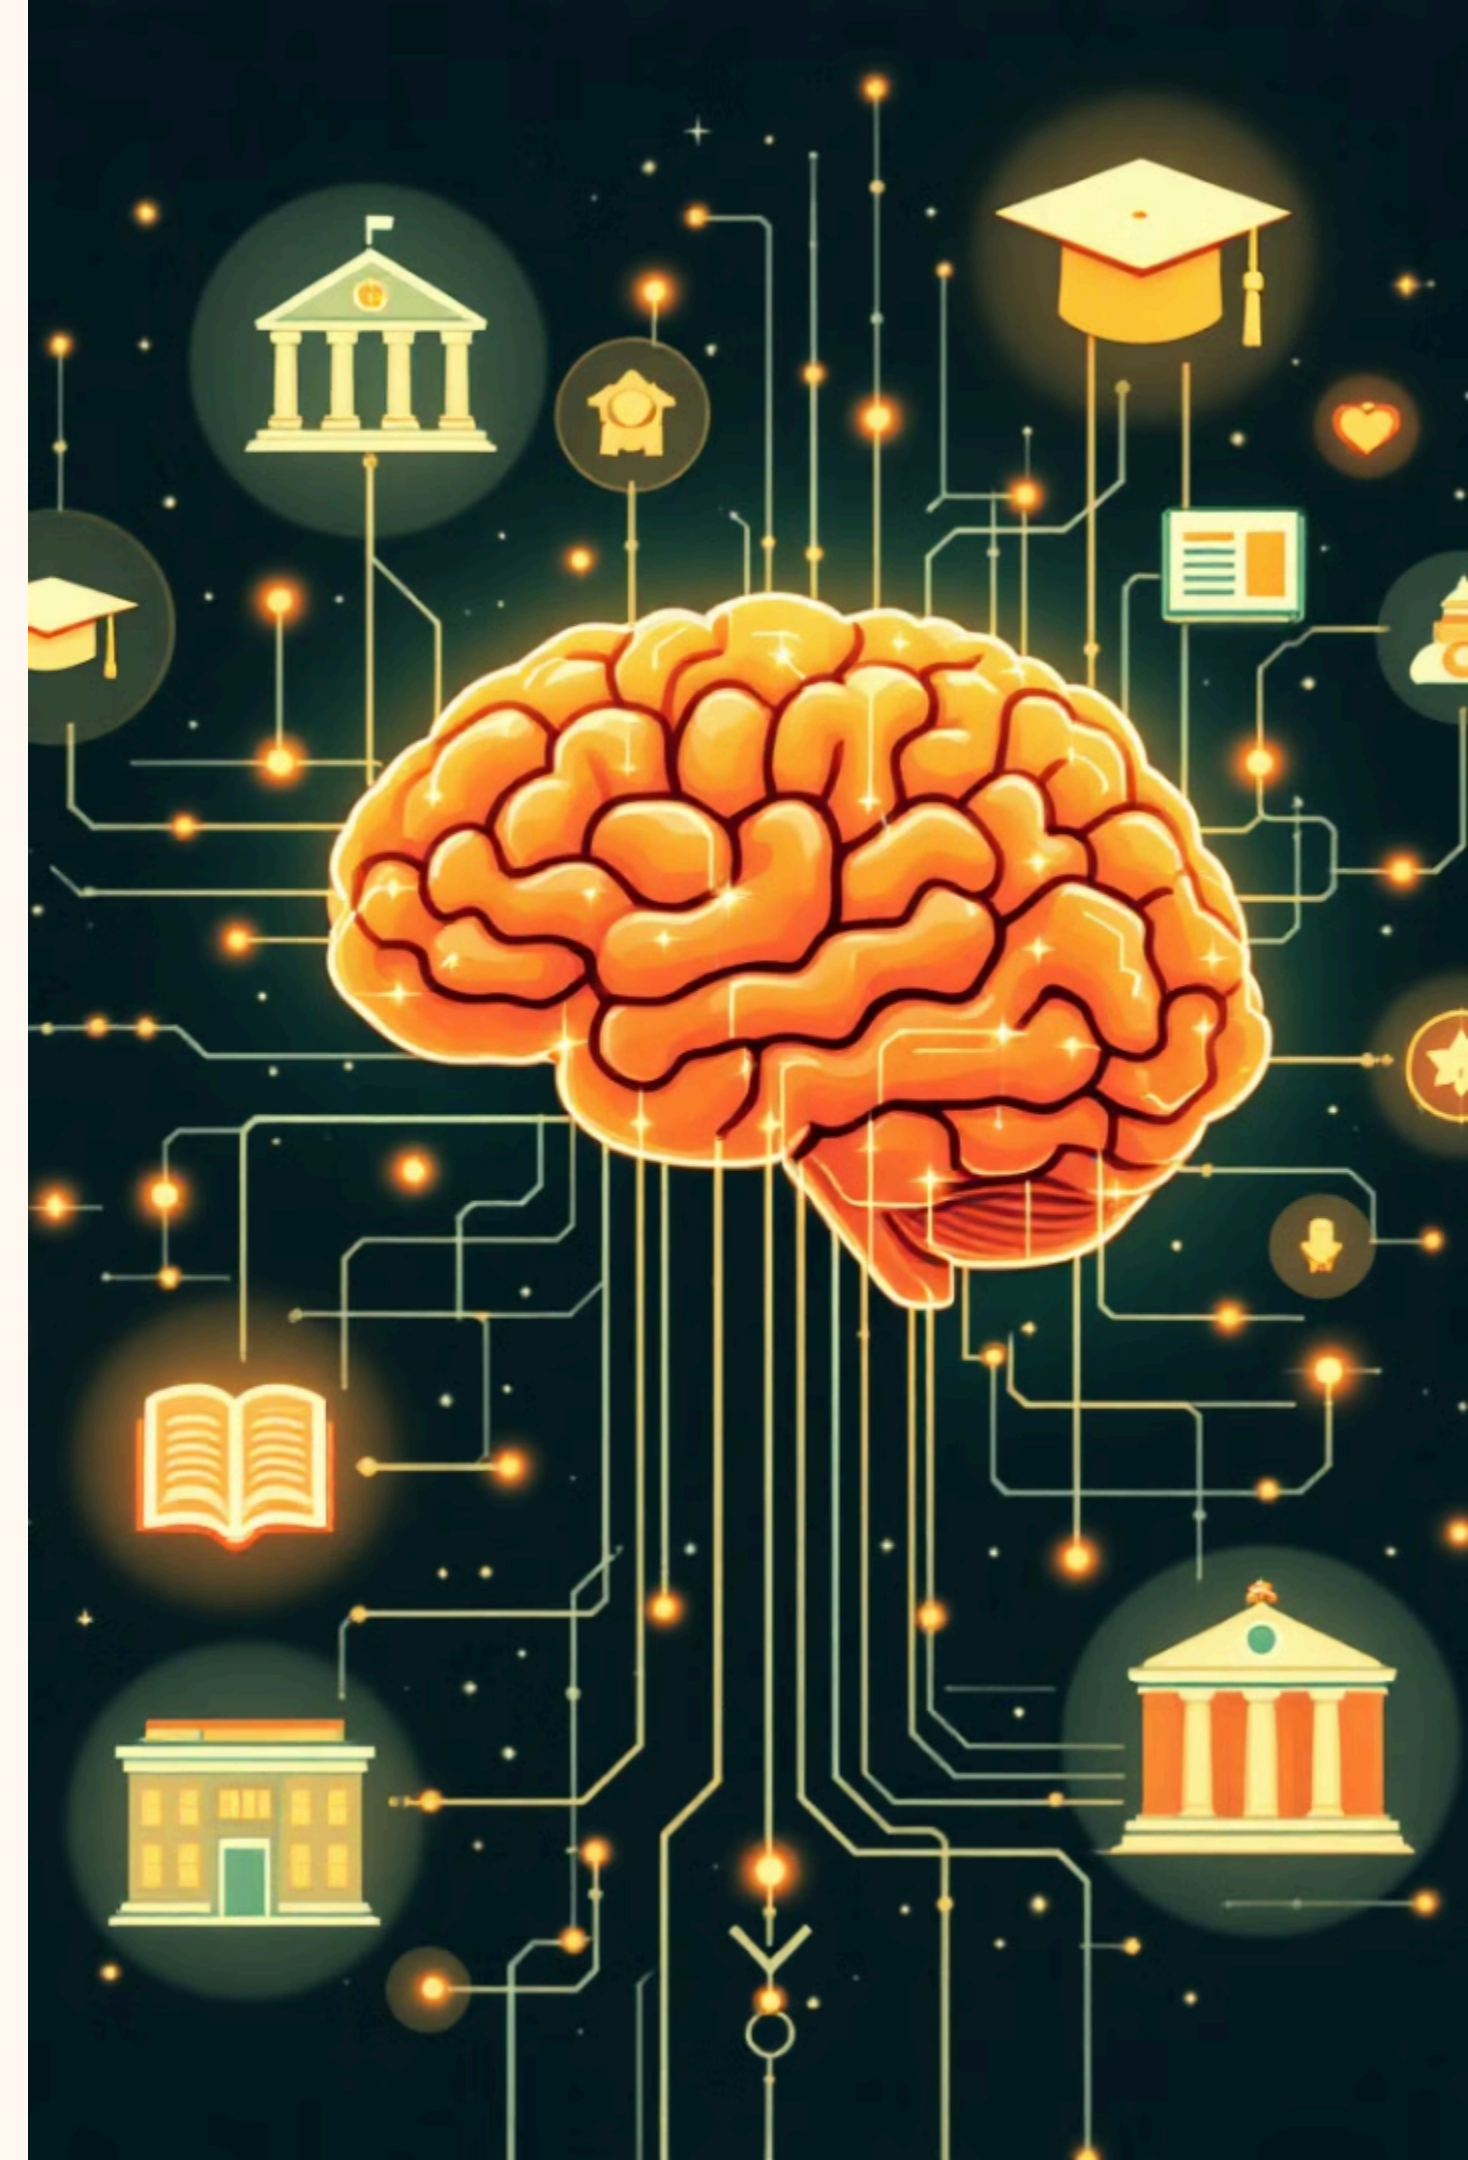

Systems that mimic human intelligence

Applications in Education

- Personalized learning platforms
- Automated grading and feedback
- Data-driven insights

Why It Matters

Enhances accessibility, efficiency, and engagement

Day 2: Empowering Educators and Learners

AI Integration and Lesson Plan Creation

Use Gagné's 9 Events and 5E Model for AI-supported lessons

AI-Based Educational Tools Training

Explore ChatGPT, Quizlet, Google Classroom

Group Activities

Collaborative tasks to apply AI concepts

Student-Centered AI Applications

Tools tailored to student needs

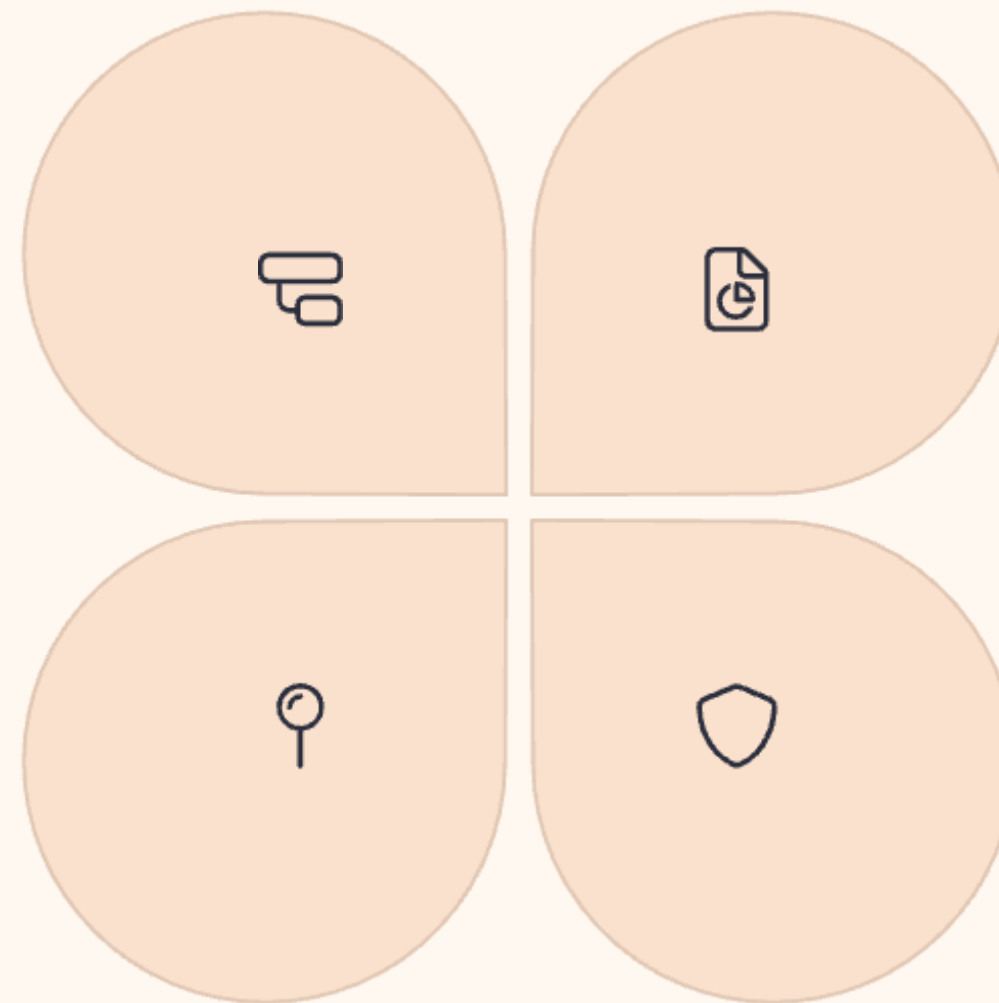

Day 3: Managing Education with AI

Project Management Tools

Trello, Slack, Asana for educational projects

Project Roadmap

Plan for implementing AI in education

AI-Based Performance Tracking

Monitor and improve student outcomes

Ethical Use of AI

Data privacy, bias, transparency

Day 4: Learning by Doing

AI for Instructional Design

Create AI-powered lesson plans and activities

Educational Technology Solutions

Explore AR/VR and gamification

AI for Data Analytics Workshop

Analyze educational data using AI tools

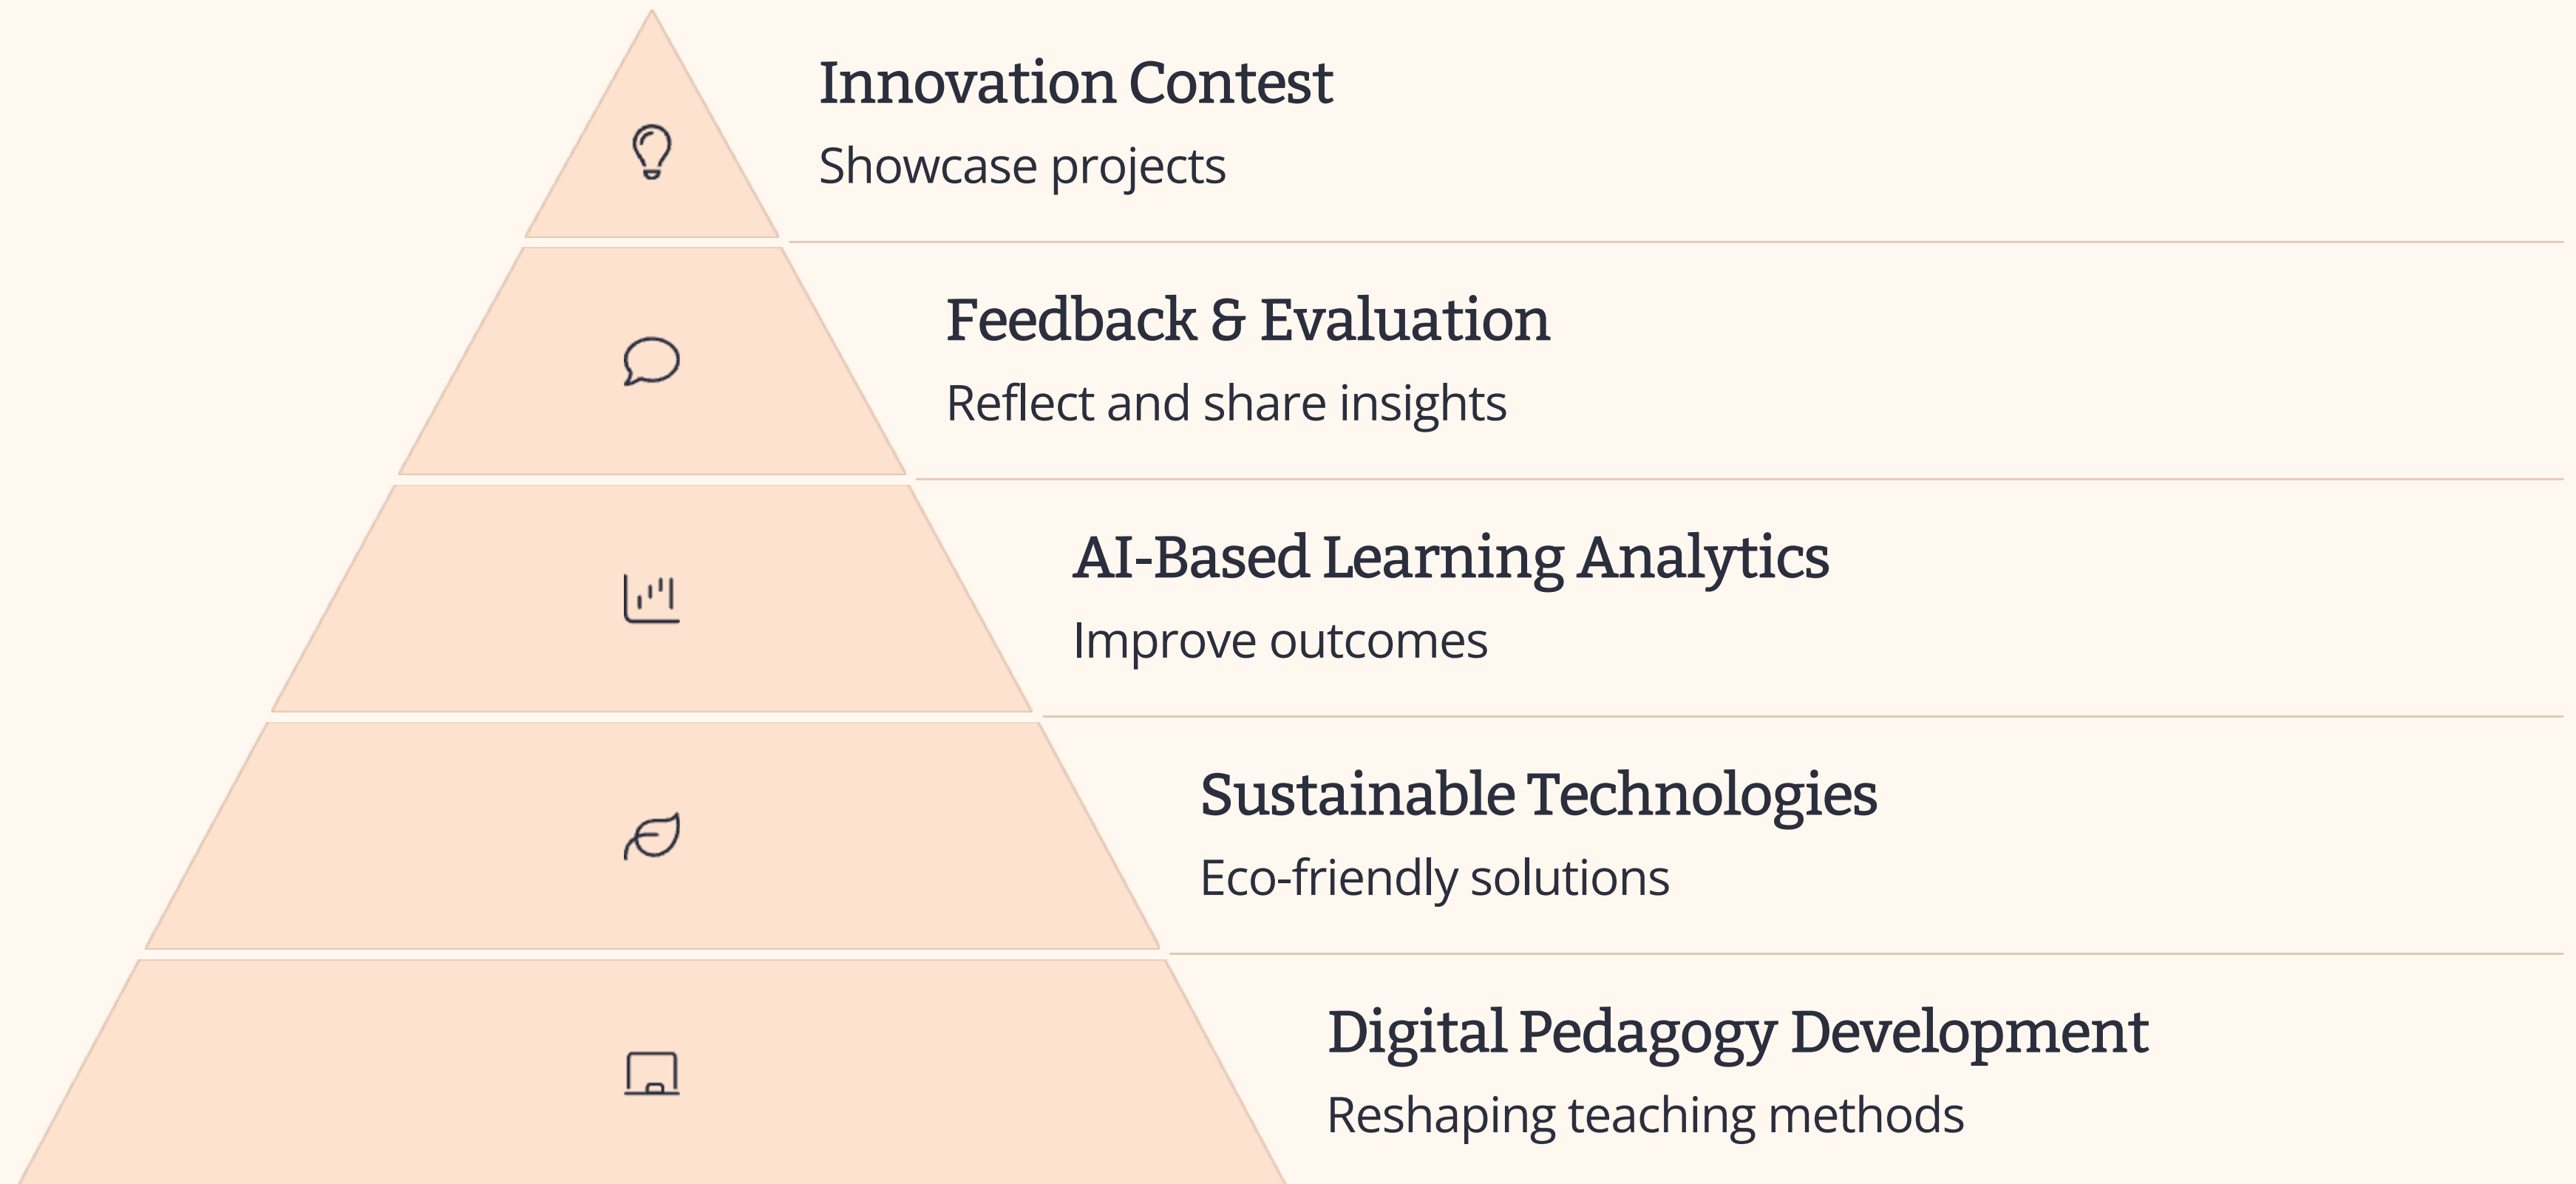

AI in Teacher Development

Support continuous professional growth

Day 5: Transforming Education with AI

Why This Program Matters

International Collaboration

Connect with global experts and organizations

Practical Training Ethics and Sustainability

Hands-on workshops and group activities

Responsible and sustainable AI use

Pedagogical Innovation

Cutting-edge teaching methods

Funded by
the European Union

Join the AI Revolution in Education!

For Youth Workers

- Equip yourself with AI tools
- Foster innovation and inclusivity

Next Steps

- Explore AI tools and platforms
- Collaborate with peers
- Stay updated on AI trends
